momentary, temporary conditions arising from the pressure of the circumstances, moral decadence, depravity or passion growing out of anger, jealousy, revenge, hatred or other motives in a person who did not suffer from a mental disease, or defect, or an abnormality that is manifested only by criminal conduct.

At the time Scott Curley committed the instant offenses he had a mental disease or defect, namely Schizophrenia, Paranoid Type. Notwithstanding the presence of this mental illness, the defendant's behavior, in addition to the statements he made to representatives from the Coconino County Sheriff's Office and me, demonstrate that he appreciated the wrongfulness of his conduct. To wit:⁶⁸

- a. On August 24 or 25, 2010, Scott Curley broke into Andrew Carman's residence to steal the assault rifle used to kill Deputy Harris. When entering the Carman residence, the defendant did so at a time when he knew no one was home and entered through a side window so that he would not be seen. (See Pages 16 and 66 - 68)
- b. Once inside the Carman residence, Scott Curley swept away the footprints that he made in the flour that was left on the floor. He did so in order to "cover" his "tracks." (See Pages 57, 58 and 66 - 67)
- c. After Scott Curley stole the assault rifle from the Carman residence, he hid it (first in his broken down truck and then in an abandoned house) so

that his parents would not find out that he had it in his possession. (See Pages 18 and 71 - 74)

- d. By stealing the assault rifle from the Carman residence, Scott Curley knew that he could get arrested for "burglary, theft, and breaking in I think . . .". (See Pages 57 and 76 - 77)
- e. On August 25, 2010, after Scott Curley confronted Mike Waters, he left the school grounds because he knew that the police would be looking for him. (See Pages 81 - 82)
- f. Scott Curley knew that it was wrong to threaten Mike Waters. (See Page 81)
- g. While on the dike near the school and in an effort to learn how to use the stolen assault rifle, Scott Curley fired off some practice rounds. He shot into the ground because he was "not stupid enough to shoot into the air." (See Pages 20 - 21, 55 and 79 - 80)
- h. When Scott Curley saw more than one police officer near the dike, he "backed off to hide." (See Pages 21, 22 and 44 - 45)
- i. When Scott Curley returned to his residence and realized that his father was going to call the police, he left and spent the night in the desert because he knew that if he stayed, he would be arrested. (See Pages 22 - 23 and 84 - 85)
